DEATH COMES SUDDENLY.

icorge P. Butler, Former Keeper, Passes Away.

George P. Butler, who was night station keeper at the second precinct police station for about seven years, died about 7 o'clock this morning in the car barn of the Metropolitan electric road, corner of East Capitol and 15th streets. His death, it is believed, was due to heart disease, as he had suffered from heart trouble and asthma for a number of years. Last night Mr. Butler was on duty as usual, and this morning when he left the station he was in excellent spirits and made no complaint of feeling unwell. He boarded car at 9th and N streets, transferred at F street and got off at 8th and East Capi-tol streets. After getting off he remem-bered he had left his umbrella in the car.

Instead of waiting until later to recover his umbrella he walked through the rain all the way to the car barn, and upon his arrival there he was exhausted. He seated himself on a chair to rest and in a few minutes he was dead. Coroner Nevitt was notified and he gave permission for the removal of the body to the late home of the deceased, No. 104 8th street northeast, and later in the day the necessary death certificate was given.

necessary death certificate was given.

The deceased was seventy years old. He came here from Michigan a number of years ago and served on the Capitol police force. Seven years ago he accepted the position in the police department which he held until his death. A widow and three children, two daughters and a son, survive him.

The funeral will take place from the late home of the deceased Monday, and the in-terment will be at Rock Creek. The hour for the funeral will not be fixed until a brother of the deceased reaches here from

Loring, was intentionally omitted in making the will because he had already been provided for in the will of his father, the late Judge Edward G. Loring. This statement appears to be a mistake on the part of the testatrix, for the name of Dr. Loring was not mentioned in his father's will, nor has he or his children received and the part of the control of the contr his children received any benefit from his father's estate.

WATER DISCOLORED.

That in Rock Creek the Shade o Visitors to the Rock Creek Park have observed that during the past day or two the remarkably dark color, some declaring that it is the color of black ink. This condition of the water in the creek, it is stated, has never been noticed before, and no one seems to have yet discovered to what cause or causes it is due. It is said that there is no ediment in the water, and various explanations have been offered, but none seems to have yet been substantlated.

It is declared that the cause, whatever is

is, exists beyond the District line, some-where in Maryland, and by some it is thought that escaping matter from the sewerage system at Kensington, Md., is responsible for it. It was at first believed that a dam near Chevy Chase was responsible, but it is said that the dam is intact and it is also said that it is not attributable to the Kensington sewerage system. The foreman of the chain gang at work in Rock Creek Park declares that his horses will not drink the water, and others claim that it is killing the fish in the stream.
